

Faded Labels, Receipts, or Barcodes?

Get clearer prints after a simple cleaning.

By not cleaning, you risk:

- Wear on the printhead
- Faded receipts or erroneous barcodes
- Need for reprints
- Costs associated with broken equipment
- Damage to printer due to "self-help attempts"

Cleaning Swab

Use the Cleaning Swab on the interior of electrical equipment such as a thermal printer to clean the thermal printhead. The foam-tipped Cleaning Swabs are individually packaged in a small foil pack for your convenience and have a 5 year shelf life.

Use this product with every replacement of new media stock or as an emergency maintenance procedure to correct poor print jobs.
