

Safe. Convenient. Effective.

# Deterra is the solution

Closing the loop on the pharmaceutical lifecycle

### Vetted, Endorsed, and Recommended

- The manufacturers of Deterra® have testified before a Joint Congressional Committee about at-home drug deactivation.
- The manufacturers of Deterra have testified before the FDA to amend recommendation to expand to the use of at-home drug deactivation and disposal technology.
- Deterra is endorsed by the DEA Educational Foundation. The White House Office of National Drug Control Policy cited at-home deactivation technology in their Drug Control Policy 2.0

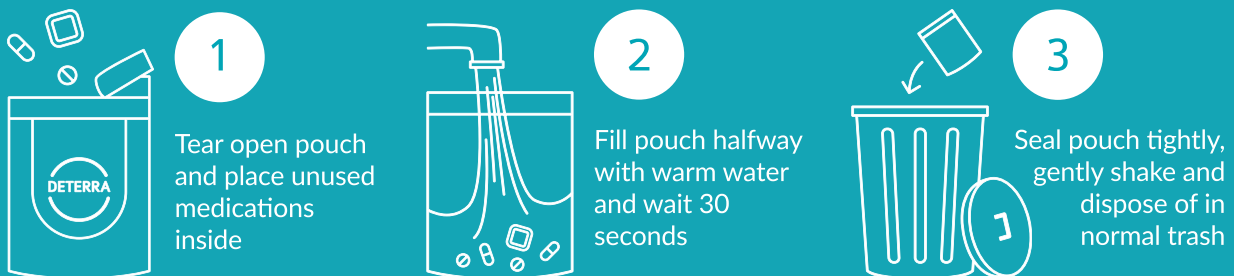

\*Deterra 3.5 and 5.0 are able to deactivate maximum liquid amounts along with maximum pill or patch quantities.

U.S. Patents No. 8,535,711; 8,475,837; 8,979,724. Additional Patents Issued.

Product Sizes	Maximum Pills per Pouch/Container	Maximum Liquid per Pouch/Container	Maximum Patches per Pouch/Container	Units/Pack	List
D7025-L	90 <b>OR</b>	12 oz./360 ml <b>OR</b>	12	10	\$69.50
D4334-XL	450 <b>OR</b>	60 oz./1.8 L <b>OR</b>	60	5	\$167.00

D7056-2.5	2,500 <b>OR</b>	84 oz./2.5 L <b>OR</b>	250	1	\$124.00

## The Deterra drug deactivation system neutralizes drugs effectively, safely and quickly.

Each patented Deterra pouch contains a water-soluble inner pod containing MAT<sub>12</sub><sup>®</sup> activated carbon. Once the pharmaceuticals are placed in the pouch, warm water is then added, which dissolves the inner pod releasing the activated carbon. The warm water will also help dissolve pills and draw the drugs out of patches.
